in 1976 the bicentennial year robert penn warren told bill moyers that he was in love with america but his love for the nation was more often than not troubled and angry warren once remarked that any intelligent person is inclined to criticize his country more strongly than he will criticize anything else and he should it s a way of criticizing himself too trying to live more intelligently and more fully in the american vision of robert penn warren a noted warren scholar traces the evolution of our first poet laureate s distinctive stance toward the american experiment in democracy showing how warren sought to balance off the claims of self and society in the new world this book surveys the full six decades of warren s career combining close reading with a historian s eye for social and political context while pointedly avoiding the reductive pitfalls of the new historicism clark documents the informing role the great depression played in shaping warren s attitudes toward art and

politics and he demonstrates the necessity of regarding warren s major achievements in fiction and verse as forms of public speech read in this light warren s vision offers a set of possibilities for renegotiating america s covenant with its founders on new and pragmatic terms based solidly on the best previous commentary on warren and his work clark s study represents a new approach to its subject and incorporates insights and information garnered from the warren papers at yale a wide ranging account of the interplay between an author s imagination and contemporary history this book should prove of interest to all students of american culture especially those concerned with the interrelationships of literature politics and ideology written in a lively and direct style it will appeal to specialists and general readers alike

put the work of a pulitzer prize winning author in your students hands every day the american vision boasts an exceptional author team with specialized expertise in colonial civil war 20th century and civil rights history the full panorama of american history comes alive through their vivid and accurate retelling and the co authorship of national geographic ensures that the program s new maps charts and graphs are correct to the last detail

most american citizens are quick to criticize federal bureaucracy for its size and inefficiency they assume it has exceeded the intent of our nation s founders yet men like james madison and alexander hamilton knew that good public administrators were essential to good government william richardson here examines the origins legitimacy and limitations of public administration from the perspective of the founders thought he shows that these men especially the authors of the federalist advocated an energetic public administration as an essential component of government and even considered the emergence of a natural aristocracy of virtuous civil servants the founders would see the fault of today s federal bureaucracy argues richardson not as much in its size as in the character of its members richardson relates the founders belief that the nation should strive to produce public servants committed to developing character traits such as wisdom and moderation that would exemplify the highest ideals of the republic and thus ensure its survival they anticipated some self interest on the part of administrators but believed it would be held in check by public opinion and the political process to test the success of the founders ideal richardson examines both the character of administrators and the role of ethics in forming that character he explores the various plans for educating public leaders throughout american history and looks at how attitudes toward public administration have changed in this century from woodrow wilson s scientific ideal to recent proposals to downsize government among other suggestions richardson advocates reforming existing institutions by emphasizing character democracy bureaucracy and character is an exercise in legitimizing public administration offering important insights into the founders thoughts that can be applied to today s debate over government bureaucracy public administration may be problematic by nature observes richardson but it is crucial to our form of government through his analysis we can see that

while bureaucracy and democracy have long had an uneasy relationship neither can be effective unless we fully assess the place and purpose of character in the american regime
